

Cold Rolled Sheet Rolling Garage Cabinet

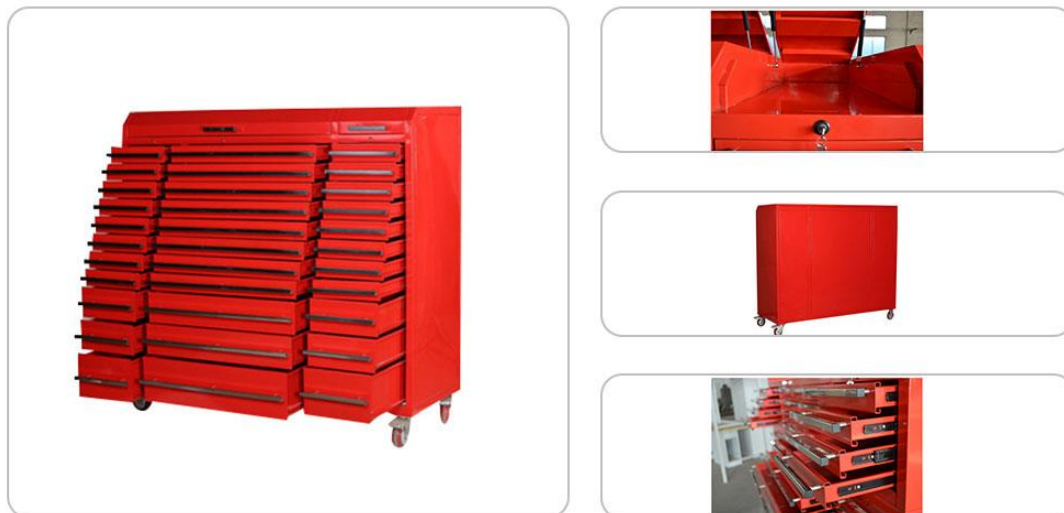

CYJY warmly welcome you to wholesale cold rolled sheet rolling garage cabinet from our factory. Our products are CE certified and currently have a large amount of factory inventory. We will provide you with good service and factory discounted prices.

Cold rolled sheet rolling garage cabinet

Welcome to wholesale **cold rolled sheet rolling garage cabinet** from us, every request from customers is being replied within 24 hours. CYJY is the professional manufacturer, we would like to provide you **cold rolled sheet rolling garage cabinet** and we will offer you the best after-sale service and timely delivery.

The overall frame of the **Cold rolled sheet rolling garage cabinet** is made of cold-rolled steel plate material, which is strong and stable. The drawer is made of galvanized steel material, which is anti-corrosion and anti-rust. The handle is made of aluminum alloy, which is corrosion-resistant and high-temperature resistant, and has high performance. There are 33 drawers on the cabinet, which can be used to classify and store tools or parts. Liners can be customized inside each drawer to prevent tools or parts from sliding and being damaged. The color, style and size of the entire cabinet can be customized according to your needs. Your consultation and order are welcome.

Cold Rolled Sheet Rolling Garage Cabinet Features

▶ Large capacity: The **Cold rolled sheet rolling garage cabinet** is quite spacious and can store a lot of tools and equipment.

▶ High strength: Since it is a heavy duty tool cabinet, it has enough strength and durability to withstand heavy objects and different usage situations.

▶ Multifunctional: The 84-inch tool cabinet also has multiple drawers, cabinets or storage boxes, which can store different types of tools and spare parts.

Qingdao Chrecary International Trade Co., Ltd.

- ▶ Easy to use: Each drawer has a slide rail, which is convenient to open and close the tool cabinet.
- ▶ High safety: The tool cabinet has a safety lock to protect the safety of tools and equipment.
- ▶ Free movement: the lower part of the cabinet has heavy-duty locking casters, which can be moved anytime and anywhere without restriction.

Cold Rolled Sheet Rolling Garage Cabinet Process

- ▶ Raw material preparation: First, the required raw materials, such as steel plates and aluminum alloys, need to be prepared.
- ▶ Material cutting: Cut steel and aluminum alloys into required size and shape.
- ▶ Welding: Weld the cut material to make the shell of the tool cabinet. It is a complex process that requires highly skilled operators and specialized equipment.
- ▶ Surface treatment: Surface treatment of the welded tool cabinet, such as grinding, spraying or electroplating, etc., to increase its durability and aesthetics.
- ▶ Assembly: Assemble all the parts into a complete 59-inch tool cabinet, including accessories such as drawers and handles.
- ▶ Quality Control: Finally, quality control is performed on the finished tool cabinet to ensure it is up to standard and free of any defects or damage.
